PET LOVE ROUTINE

BEAUTY ROUTINE

Paws are the means by which our pet friends come into contact with the ground and the surrounding environment: taking care of them with specific products is a great gesture of love. The Softening Cream for Pads and Paws and the Elbow and Callus Cream are soft and scented solutions for taking care of pads, elbows and skin in general, hydrating and protecting them. The emollient, toning and antioxidant properties of Shea butter keep the affected areas soft and nourished.

PAW HYGIENE

Two versatile formulas that offer effective cleaning and a sanitizing action for your dog's paws: on one side a soft and fluffy mousse enriched with essential oils of Lavender and Neem, on the other a practical spray with Thyme and Eucalyptus. No rinsing and perfect after a long walk outdoors.

SANITIZING SPRAYS

The Cosmè sanitizer line is dedicated to cleaning and sanitizing the places where our 4-legged friends live, offering solutions to disinfect any surface. Cosmè sanitizing products are based on natural essential oils with a sanitizing action. A truly effective resource for cleaning, sanitizing and perfuming kennels, but also litter boxes, carriers, objects and surfaces that dogs and cats come into contact with (e.g. carpets, sofas, car seats). Eliminates unpleasant odors from treated areas leaving a fresh sensation of cleanliness in the environment. Thanks to the practical nebulizer, it is suitable for use on numerous types of surfaces.

These are professional products of great technical and qualitative value that include versatile and effective solutions against germs, bacteria and pathogenic microorganisms.

Let's build YOUR BRAND together

The "COSMÉ" line of cosmetics for dogs and cats was designed to take care of our animals, creating products of the highest quality for them, which help them live healthy and express their natural beauty at their best. The products use very pure and high-quality PET beauty routine® raw materials from the plant world, and effective, natural and absolutely non-harmful formulations for animals. They do not use petrolatum, paraffin or petroleum derivatives. Without parabens, among the main causes of allergic dermatitis, nor ingredients of animal origin. Each of our products is instead characterized by the presence of essential oils, rich in beneficial properties, and mild surfactants which are able to cleanse delicately.
